

Alessandra and Baptista (Monday, September 03, 2012 4:30 pm) ... I was very much afraid that this time, too, Al and I would be in trouble, because the last time, he cheated on me. And I was already preparing myself for being beaten and raped and so on. But all those fears were quickly dispelled. Not only did we hook up easily, but we also fell in love. In love, as they say, all methods are good. We decided to postpone the wedding. - We need more time for each other. I don't want us to become a couple just because we want to get married. We need time. In the meantime, it's just a game for us.
