I'm going to get a new laptop for university. I'm not aware of which wireless chip or card I should use. What should I get? A: you should get a wireless card that supports bluetooth or wifi direct. He was very much an only child, having little contact with his older sister, Gertrud. Her family then sent her to a convent school in Switzerland as they felt she could not cope with social life. Jünger left school at the age of fifteen, and afterwards studied for a year at Ludwig-Maximilians University in Munich. After studying briefly at Bonn University, he travelled to Paris and Italy to study art. It was during this time that he first took an interest in philosophy and learned of the works of Péguy, Pascal, and Descartes. He later followed the teachings of Johann von Schillings, an educator and psychologist. In the early 1900s Jünger met and befriended the Austrian philosopher 3e33713323
