**Official Oppo Reno A CPH1983 Stock Rom**

[Download](#)

---

November 7, 2019 - This page will guide you on how to download and install Stock ROM or firmware for your Oppo Reno CPH1983. Step 1: Download the firmware file. Download the firmware file you want to install on your Oppo Reno CPH1983 phone and save it to your PC memory. Step 2: Download Android Oreo 8.0 from the manufacturer's website. Once downloaded, open the Programs and Applications app. Find and install the "Android Oreo 8.0" app. Step 3: Install Odin Tool. Once the download is complete, you can use

---

the Odin tool to install a new firmware or update an existing version.
