Is this correct? Is this how I should connect? Html: {{input type="text" value=text}} I have the following helper for the test: Ember.Test.registerHelper 'client', (params) -> Ember.$.getJSON "" + params.clientId + "/api/get_client_details" When I run the test: describe "Controller: client()", -> client(:testData) The test fails and the reason I think is because the helper is expecting a URL but is getting a model. Why is there even a model? I thought the client helper was used to get data from a server, not to get the server to talk back to you. The error: Error while processing route: client.index GET 404 (Not Found) A: That's not how it's meant to be used. If you're using the helper to connect to a database or a 9df0af710a
