Major Sponsors Bulldogs 2-1 Bulldogs Share on social media The concept of an NRL franchise in the Sutherland Shire is on the verge of reality after it was confirmed the North Sydney Bears are set to be resurrected and given the go ahead to begin their membership drive next month. It is understood the club has been granted the Green light from Sutherland Shire Council at tonight's full council meeting despite the Bruderheim Bulldogs seeking a protest on an alleged environmental harm the club may bring to the area and the relatively short relocation period that will have to be played out in the Sutherland Shire. "Although the Bruderheim Bulldogs are disappointed in the decision, they have the right to take the matter to the Land Court. It has been a lengthy process and it is about time that rugby league brings a new team to the Sutherland Shire," Bruderheim Bulldogs COO Steve Howard said. "We have been through the application process and while there are some concerns we will continue to work closely with the council until this matter is resolved." Although the North Sydney Bears new home will be in Redfern, it is understood the Sutherland Shire will remain the Bears' permanent home. The organisation currently planning the new Bears franchise will be known as "North Sydney Bears", the name of the original team, from which the eight new members are expected to be drawn, and they will be responsible for a major branding campaign to promote the club. Furthermore, Football NSW is assisting the NSWRL to set up a National Membership Drive from mid-November, which is likely to include assisting with the language used in the membership campaign. "We are looking forward to the beginning of the National Membership Campaign and providing the support and guidance necessary to establish this great organisation," NSWRL Chief Executive David Trodden said. "We also look forward to working with community and school groups to promote the new Bears concept." The new concept will be a community-based team and only those aged 12 to 54 years will be eligible to

## **How To Crack:**

**Redline is an action first-person perspective experience, loaded with highly "B" movie type of visual effects. The visuals are very mixed, in the way that the game looks like it just finished recording what was being played on a very old video camcorder. Plus the animation is really bad with the size of the character animations and the camera views. There is some very weird camera views as well. The gameplay is rather ordinary. The game is actually based on the Nintendo 64 game "Boxing Socks" where the main character, in this case, is a bald and muscular guy named Brian that wears a boxing glove on his hand. This game's difficulty is about two and half times the original difficulty.**

**The game comes in both retail and download format, with the Retail one being the "Premium" version and the Download being the base/free version.**
