DOWNLOADABLE CONTENTWe're always happy to hear your feedback and suggestions. The issue with having the DLC as a package is that it isn't exactly a free piece of content. You've got to pay for it. So after playing through the game and the DLC you have to pay another 10 bucks to get all your DLC. Kind of over kill if you ask me. I bought it on Steam just like everyone else, as I could grab it free. The issue with having the DLC as a package is that it isn't exactly a free piece of content. You've got to pay for it. So after playing through the game and the DLC you have to pay another 10 bucks to get all your DLC. Kind of over kill if you ask me. But hey at least when I got the DLC I was really interested in it and wanted to find out what kind of weapon it was, on its own it's not a very good weapon but like I've said I'm sure people like it. I think its a really good idea to have the DLC as a package. BUT what I'm asking for is that at some point they should give us gamers an option to turn the DLC on/off, just like one of the other DLC has. I think that it would make it easier for people to get it and just not have to pay for it if they don't want to. Hello!First of all thanks for your consideration! I would like to explain some things regarding Killing Floor The Chickenator DLC.Because of all the comments about the DLC we made a decision to the following:Free DLC 1. The Chickenator from free titlekilling Floor GamesCompany Killing Floor.We all like to keep our word .And there is no good reason for two DLCs in the same price range. 2. The Chickenator will be included inThe Killing Floor Title And Killing Floor - The Chickenator will be free of charge for our old customers.The next DLC will be available by titlekilling Floor. So there will be no price difference for old and new players. That's all for now! Thanks a lot!We
