The game will feature sword-wielding gameplay, but some optional animations and tweaks have been added to provide a more fluid and exciting combat experience. How to get into a fight? Attack, block, and dodge based on the actions of the foe. The effect of the attacks of the enemy will be shared by your character. [Character] The main characters will all be equipped with the same weapons, armor, and magic. In other words, you can freely enjoy fighting other players with the ability to change your equipment as you wish. The type of weapons included in the game are the 'Sword', 'Staff', 'Blade', 'Leap', 'Mage (Magic)', and 'Curse'. 'Sword', 'Staff', and 'Blade' are weapons with short reach and low power. However, they will allow you to quickly perform important actions such as special attacks. 'Leap' is a weapon with long reach and a range. You can use it to perform powerful moves that require a great amount of precision. 'Mage (Magic)' is a weapon that can be used with magic. It is a type of magic that fires a large beam of magic that can heavily damage the enemy in one hit. 'Curse' can be equipped as a temporary weapon. Using the curse, you can recover HP, and even stun enemies. The game will also include 'Tome (Book)' as a new form of equipment. Tome can be wielded using skills that consume a number of skill points. You can use Tome skills to cast various powerful actions. Although you can equip each type of weapon up to five times, the number of additional pieces that you can equip will vary from weapon type to weapon type. For instance, you can equip four 'Sword' weapons at maximum, while you can only equip two 'Leap' weapons at maximum. [Equipment] The game will include a large variety of equipment as well. Since the main characters will all be equipped with the same equipment, you can experience the thrilling feeling of being able to freely change your equipment as you wish. For those who want to experience the drama of the Lands Between,
