Rise, Tarnished, and become an Elden Lord in the Lands Between, the underground world where all the dead are resurrected. Are you ready to take up the challenge? In addition to the online element, which is similar to a role-playing game, "Majorshock" transports you to a completely different world where you are unable to die. In the real world, life is colorful and the dead are forgotten. However, the Dungeons of the Lands Between have lost their power, and the latter half of the game will be fought in dangerous dungeons, where enemies such as bosses are discovered in front of you. You will need to utilize a special character called a "Tarnished" to make the battle against the opponent. Tarnished can be developed with a combination of Magic and Technology. Since a Tarnished's crystal body is like a tabula rasa, you can customize it by manipulating it to increase its power. This battle system in which you can freely allocate your combat power is different than the typical "attack and defense" battle. The center of battle is not the number of hits you can make on your opponent, but the support your Tarnished receives. The more support you can provide, the stronger your Tarnished becomes and the greater your victory. Feel the magic of a "Majorshock" as the power of the Elden Ring is released by the "Void." "Tarnished" is a character that can be developed by equipping "Magic" and "Technology" with equal weight. Since the Tarnished's crystal body is like a tabula rasa, you can freely allocate your combat power. It becomes stronger by absorbing the items that you equip. Experience the thrill of a power sharing system. A Faction War with 8 characters has begun, with players leveling the characters to promote the main character!

3D Character Design ■ Skills Unique Skills: The core combat ability of Tarnished. Since it has no fixed defense, it can freely allocate its combat power and can quickly change its attack pattern, but the drawback is the low hit rate, so be careful when fighting. Skill-Boost - Effectively increase the power of the skills. Skill-Boost - Your Tarnished can learn new skills. This increases the number of skills it can learn at the same time. Skill-Boost

### **The Best Selling Game of last year**

"Ars Academica" of Oxygen Not Included was a game that caught the attention of the general populous worldwide.

The game is available on the Google Play Store and steam. Through the Steam Catalogue, Ars Academica managed to outsell the best selling game of all time, Minecraft. Unreal Tournament is the number 3, but these are all just minor details compared to the game?s overwhelming success.

Oxygen Not Included is a new fantasy game where you control the crew of an old rusty spaceship.

Featuring a beautiful 2.5D engine and a beautiful depiction of an old space ship, Oxygen Not Included is an absolute joy to see and play.

Around 80.000 copies of the game have been sold. A pretty impressive number considering that the game is released in a highly competitive area with many other games competing for the market.

I also recommend the PAD Saga, or to a lesser extent, the AQUA series (or it's first game to come out in a few years), as they have more female protagonists and are unlike most games in that respect (see Hollow Fragment for an example of this, and if I remember correctly, there are even some female characters in AGIEL whose power rivals that of male characters in the main story). The oldest game I really enjoyed, other than Legend of Mana, is Legend of Evermore. I know it's probably not very popular here because it's very quirky, but I really enjoyed exploring its world and getting to explore the innermost depths of a glorious forest. Another series that I really liked was the Ninefold series, although I don't think they're as light-hearted and friendly as Legend of Evermore, as they focus on exploring the inner workings of the world and the minds of the people there. The only problem I had with that one was that they made the protagonist a "young adult", which (since he was an adult in the previous games) ruined the game for me. It was like they were pandering to the (incorrectly) stereotyped audience for it. Elden Ring is the game I'd recommend to anyone. It's funny, nostalgic, it's got stuff I really like in it, and it's got stuff I don't. It's an RPG masquerading as a Fantasy Action RPG, and then gets into Fantasy Action RPG with a twist. It's a combination of all the greatest things in gaming! The reason why I'd recommend Elden Ring is because, even though it isn't exactly a traditional RPG, it still has many of the ingredients that go into the genre. You can travel the world and explore it. You can customize your weapons and armor. You can get various skills (Arcane Magick, Strength, etc.) and upgrade them in different ways. You can find equipment in places to level up your skills. One major difference is that your character uses "Elden Ring Magick" to do things instead of the typical "attack spells/ability spells/etc." You use the ability to cast magick to do things like attack, use skills, or even use your abilities to manipulate the

Enjoy!Da Redação | 28/03/2019, 21h30 - ATUALIZADO EM 28/03/2019, 21h53 O parlamentar federal Luiz Estevão (PSDB-RS), assessor especial do pecuarista Jair Bolsonaro (PSL-RJ), manifestou-se neste sábado, 22, contra a proposta da ministra da Agricultura Tereza Cristina de que seja criado um corpo de intervenção federal para produzir mais carne bovina. O deputado disse acreditar que a medida irá deixar o mercado mais fechado e ensejar uma diminuição da soja importada. "Nós falamos em aplicação de juros no mercado (com intervenção), e mais ainda, quem tem o dinheiro para fazer isso é mesmo a União", criticou em vídeo divulgado em sua conta no Twitter. "Quem vai alugar a carne para a União? Quem vai pagar ouídos, filhas, educação para essas crianças?", questionou o parlamentar. No Facebook, Estevão é autor de três postagens a criticar a proposta da ministra, que também teria agradado a Jair Bolsonaro, e uma foto com um cartaz em seu apartamento, com o texto "Gente, ministra não é que sobe da cama". Ele lamentou também que a União já tenha implementado medidas de baixa aos preços da
