Based on Tolkien's "The Lord of the Rings". The story unfolds as the war between the forces of darkness and the forces of good continues. The armies of good and evil encircle the lands between the wars, surrounded by danger and strife. A war that the Elder Elves have long foreseen. The lands between the wars, "The Lands Between," is a dangerous world in which the elders of the Elder Elves fought against the forces of evil, long ago. Evil has flourished, far more than the Elder Elves had foreseen. The Elder Elves have protected the lands between and were subsequently cursed, and their time as a race ended. The Elder Elves cannot return to their homes, which are fallen and decayed. However, the Elder Elves still exist. Their race is composed of reincarnated descendants of the gods and the people of the Lord of the Rings. A man who is an incarnation of the power of Edoras goes by the name "Ealden Ring." Ealden Ring is the protagonist. [E.R.A.R.] stands for "Elder Rings Alliance Requiem." Using the normal game mechanics, play an adventure game where the Elder Elves and reincarnated people of the Lord of the Rings team up. In order to use an E.R.A.R. game, you will have to "smelt" the parts of the game. If you melt them with Gunpowder, you will get "E.R.A.R.". "E.R.A.R." has various variations. With every variation, you will be able to play. *Note: You can only pick one of these variations. Even if you buy other parts separately, they can be "melted" to create a variation. The following are the types of variations. [E.R.A.R.] (Standard) · A stand-alone game where you play the character of Ealden Ring. · A player can play alone. (Playable offline.) · A 3-dimensional game. · A Story where the main theme is a reluctant hero and his faithful companions. · You can fuse new abilities while playing. · Complete the main story, and you can play with the hero's new fusion ability. · You can fuse in the middle of the game. · With the new fusion ability, create a new variation of the

Hello, I have few issues with u15. I would like to talk about one of them. When I am in the "Character Editor" (looks like a car) on the right side in the picture, it says: "/character/edit/4" BUT I have same issue when I am editing the character "Ion" in the story. It shows "character/edit/4" I think I need to test the compatibility with the older u15.1.8.152. So please can you help me with the comments. Kind regards I'm having an issue where I can't use my summoned mobs. This is still happening. I thought it had something to do with my u150 update but I can't get that update to download (its already installed). Hi. I have a question about the mob up ^. I have u150 and on the /monster/guide/4 (the fourth picture) there is label of my monster with the thickness of 0.25 instead of 0.75. This look difference I had in the last version. Can someone confirm me if this is a bug or expected? If you issue any further questions about the two new mob editing mode, I suppose we will be super glad to help. Report this post I've updated to u150, but for some reason I cannot go back anymore to edit the creature settings. User ID: 433244847048 Report this post report as spam Report this post Still dont know why the this occured with the the bigger font, i accidentally deleted the settings for summoned creatures of before making it smaller but now its like that forever *cries*. I do have a duel battlecraft server a replacement for this could be very beneficial for my server This i fully understand could be fixed very easily this is not some refrence model, anything i can do to fix this at the present time? Report this post I've updated to u150, but for some reason I cannot go back anymore to edit the creature settings. I'm still having issues with this. I attempted to contact a tech on Skype but he's no longer responding. What version of U15 are you still on, Q*bert
