The property was the first open for three years, and it logged a "record number of interested parties" in the week that closed, said Daniel Butler, a senior vice president at Akamai Technologies, which worked with Cayman Asset Management, the private-equity firm that bought the land and sold it to the pair. "They're getting good prices for it and good interest," Butler said. The price reflects the social and environmental credentials of the wheat fields, which are located in the southern Indian state of Karnataka, more commonly known for its coffee plantations. As you're reading this, baby mamas are picking out their monthly stock of clothing or groceries or both. And the stores that sell those items may be, well, babies. Even if you're an adult, their retailers will probably be less than 30 days away from the due date of a new generation of owners, who will help to shape the trajectory of the family business. But just because these babies are about to become parents, doesn't mean the business they're about to take over is dying. And the transition may be more vital than any other change that typically occurs in family-owned companies, even those that have to do with the business itself. If they do, or are about to, sell to their baby, here are six things to keep in mind. 1. If you're hunting for a job, don't bring a baby with you. Babies can be a great way to show you're reliable and loyal, but they can also be a bad idea. A new mother will be too busy to answer emails and phone calls, so it'
