Is there a way I can install 64 bit dxcpl in windows 7 64bit. I get this error message. "A: Please visit the main page of Microsoft DirectX SDK on Software Informer. They have a download link for the DirectX SDK for all supported Windows OS versions, including W7 (x86/x64). DirectX SDK If you look carefully in the Dxcpl.exe window, at the bottom you have an option to force some version of DirectX DirectX allows you to tell the game or application that it has specific DirectX requirements. By default this is set to the latest Windows 7 version (which is DirectX version 12). Note: Version 10 of Directx was introduced with Windows 7, therefore Windows 7 only has DirectX version 11. I tried it on windows 7 and I didn't find option to force some version of DirectX There is no such option in the Directx settings. How to fix missing
